Hi Parents-

As we get ready for the start of our MBA Games this coming Saturday, February 13, I wanted to go over the Protocols in regards to Wildcat Sport & Fitness so everyone is on the same page with how it will work. The practices have all been going very well so thank you for following the guidelines we have in place for those!

First and foremost, if you or your child are feeling unwell, or showing any symptoms related to Covid, please stay home. If you or someone within your family who has tested positive and/or are currently in quarantine, obviously no MBA games/practices until quarantine is over. We also encourage you to let us know, as the safety and wellbeing of everyone in the MBA is our top priority, and would like to be notified in case we need to make decisions regarding the season.

On the attached schedules, you will notice the **games are 12:30, 1:45 and 3:00 p.m.** The extra time between games is there for us to clear everyone out, sanitize areas, and get teams back and warmed up for their game. Because the facility is closed to everyone besides MBA people, the **front doors will be locked until 10 minutes prior to your scheduled game.** You can either wait in your cars, or outside, but no entrance into the facility is allowed until 10 minutes prior. Once the gym is ready, we will unlock the doors, where your temperatures will be taken and you'll be sent to the gym. Everyone must wear a mask upon enter the facility, and parents will be required to wear the entire time. Kids can take off when playing in the game but when on the bench or any other time, they must be masked.

There is a limit of 2 spectators per player. No other children or adults will be allowed into the facility besides 2 per player. The spectators must be seated and remain in seats during the duration of the games (besides obvious restrooms breaks). There will be seats stationed on Court 2 for everyone to use. **When games are finished, you are asked to immediately exit through Door #16,** at the back of the facility (where the wrestling room is). DO NOT walk back out the main doors you entered through as everyone for the next games will be waiting outside.

These guidelines will help us get through this season. If at any point we feel it's become unsafe for the kids, or people are not following the rules, we will have make tough decisions about the rest of the season. So please do your part and follow the guidelines.

If you have any questions, or need further information, please contact me at any time.

Thanks

Sean Supler
